

WEBSTER WEDDING AT ALEXANDRIA

Son of Former Chief of Police Marries New York Girl.

Ceremony Takes Place at St. Mary's Church, With Few Present.

Justice Caton Fines Gibrey on Charge of Trespassing.

WASHINGTON TIMES BUREAU, ALEXANDRIA, VA., JAN. 21.

William F. Webster, son of the venerable former Chief of Police James P. Webster, was united in marriage to Miss Sarah Lassourville, of New York, this afternoon in St. Mary's Church. The ceremony was performed by the Rev. Lawrence Kelly, assistant pastor of St. Mary's Church, in the presence of a few friends of the contracting parties. The bride had as her maid of honor Miss Mary Schmitt, of this city, while the bridegroom was attended by William Hayes as best man. After the ceremony a reception was held at the home of Captain Webster, in Wilkes street, after which Mr. and Mrs. Webster left for a tour through the South. They will reside in this city.

Police Court Notes.

In the police court, this morning, Justice H. B. Caton presiding, the following cases were disposed of: R. M. Gibrey, on the charge of trespassing on the property of Charles Pierpont, forfeited \$5; Harrie Nitely, charged with abusive language toward Victoria Jewel, forfeited \$3 collateral; George Bird, colored, charged with drunkenness and disorderly conduct, was fined \$2.50; James Edmonds, colored, charged with threatening and abusive language, was fined \$5.

Stopped Train for Fight.

At an early hour Sunday morning, William H. Foote, residing at 219 South Payne street, appeared at police headquarters with his face in a badly battered condition. Foote was unable to tell how the fight, in which he received his injuries, started. Several passengers who came with him to headquarters stated that the fight was of such a severe character that the conductor stopped the train on the causeway at the north end of the Long bridge for about fifteen minutes until the fighters quitted down. Some of the passengers informed Lieutenant Smith that a colored policeman was near the scene of the trouble, but did not make any arrests.

Firemen Called Out.

The entire fire department was called out shortly after 8 o'clock yesterday evening to extinguish a blaze in the chimney of a house in Queen and Fayette streets. The blaze was extinguished without their aid.

Many Hear Mrs. Nation.

A large crowd was in attendance at the lecture given by Mrs. Carrie A. Nation at the Opera House yesterday afternoon. It was along the lines of Mrs. Nation's other lectures.

Deaths and Funerals.

The funeral of John Welch, the young man who died from injuries received at the roundhouse last week, will be held tomorrow morning at his late home in South Patrick street.

The funeral of Thomas S. Cole, of Annandale, was held from his home at that place today. The interment was in the family lot.

The funeral of Mrs. Elizabeth L. Keavan was held from the Westminster funeral chapel, in King street, yesterday afternoon. The services were conducted by the Rev. Father J. Kelly, of St. Mary's Church. The interment was in St. Mary's cemetery.

LECTURE ON OLYMPIC GAMES OMITS ESSENTIAL DETAILS

Burton Holmes lectured at the Columbia last night to a large audience on Athens and the Olympic Games.

As an exhibition of photographs and moving pictures it was an unqualified success. As a lecture it was a distinct disappointment. All of the pictures were well taken and were very clear, but the selection in some instances might have been better, especially in those of the games.

The great fault of the lecture was the omission of essential details. It was not expected that in such a short time Mr. Holmes would go into the minutiae of the Olympic Games, but he should have reminded his audience of salient facts, which would have been interesting, even if a repetition of what was known before. For instance, a number of views of the stadium was shown; its cost is placed at \$40,000 and its capacity 60,000 people, but Mr. Holmes neglected to state how many laps its track was to the mile, a question which would arise in the mind of the veriest novice in sports. In several instances finishes of races are shown with the second man as clearly portrayed as the first, but it is seldom this second man is named, although it would have been of interest to know who it was who was giving the leader such a hard race, and who was so badly beaten by the speedy Americans. An excellent moving picture of the 800-meter run is shown, but there is a very poor effort to describe the positions. Even professional followers of athletics present would have been puzzled if Mr. Holmes had recalled the facts, without which the pictures are of only passing interest and have no special value. Persons by thousands are shown crowding the stands, but no mention is made of what the poor enthusiasts paid. This haziness and indefiniteness, more what would otherwise be an entertainment well worth hearing as well as seeing. The lecture will be repeated at the Columbia this afternoon.

PUPILS MUST NOT SMOKE.

BLOOMSBURG, Pa., Jan. 21.—Every student in the Bloomsburg schools is to be notified today that suspension will follow the smoking of cigars, cigarettes, or pipes on the school grounds or on the way to and from school, the directors declaring that they have jurisdiction over the scholars from the time they leave their homes for school until they return.

Standard Oil Survivors Once Prominent on Road

John D. Rockefeller and His Associates Owned and Drove Many Fast Trotters in Palmy Days of Amateur Sports.

NEW YORK, Jan. 21.—In an interview recently John D. Rockefeller remarked that of the sixty men who were originally associated together in the Standard Oil Company only four are now living. It is a singular coincidence, perhaps not without significance, that the four who are left were in the busiest period of their careers all enthusiastic votaries of driving. The youngest is sixty-five and the oldest is seventy-seven.

The head of the giant corporation was well known on the road in New York long before he came into his present overshadowing prominence in the financial world. In those days William H. Vanderbilt and Frank Work were reckoned as richer men and both drove faster trotters. Mr. Rockefeller, however, had some good ones. He was fond of driving teams, and usually held the reins over a pair in preference to a single horse on his daily drive through Central Park and up Seventh avenue to "the dam," or beyond the Harlem river to the "Vanderbilt mile" in Jerome avenue. Though a member of the old Driving Club of New York for many years he was not one of the regulars at Fleetwood Park, and like Robert Bonner, he kept aloof from the road houses, but he was always ready to pull out for a brush with anybody who drove a good road horse.

Nearly thirty years ago he was driving the black gelding, Midnight, 2:19, one of the fastest five-year-old trotters of the times, and in 1881 he paid \$8,000 for Flash, 2:19, to mate him, after trying them to pole. Dodgeville, 2:14, and Superior Girl, 2:17, were another and later pair, while Bonhomme, 2:17, and Pennock were some of the speedy

single horses he owned. Mr. Rockefeller ceased to drive and sent his road wagons down to Van Tassel & Kearney's to be sold only three or four years ago.

William Rockefeller is remembered by old-time road riders as the owner of the fastest pair of trotters in the country about twenty-five years ago. He paid \$7,500 for the gray stallion Independence, 2:21, by General Knox, back in 1879, and after racing him one season mated him by the purchase of the black mare Cleora, 2:18, by Menelaus, for \$15,000. In after years Mr. Rockefeller drove the stout gray trotter, So Long, 2:13, to pole with Virginia Evans, 2:15, and then with Chelsea D., 2:18. At his country place near Greenwich, Conn., he bred trotters quite extensively, with Independence and Wild Rake, 2:24, at head of his stud, and with such broodmares as Kate Sprague, 2:19; Annie W., 2:21; Fannie Sole, 2:20; Urbana Belle, 2:20; Kate McCall, 2:22; Calamus, 2:24; Kate Hall, 2:24; and Maggie Morrill, 2:24. The latter mare he raised the game little gray mare Agnes Morrill, 2:22, that found the soft spot in Lou Dillon's half sister, Ethel Mack, 2:22, in a memorable match race at Fleetwood Park about ten years ago.

Cal Oliver H. Payne, one of the four living founders of the Standard Oil Company, has driven trotters many years. He once owned the fast mare Alar, 2:11, but let her slip through his fingers before her speed was developed. Valentine, 2:18; Dixietette, 2:17; Ruth Wilkes, 2:17; Tina Wilkes, 2:17; and Whitney, 2:12, are some of the good ones he has owned.

One of the oldest of the original Standard Oil magnates was prominent on the road twenty-five years ago, but like most of the wealthy men who made up the "assaulting brigade" gave up his trotters when the natural soil earth driveways north of Central Park disappeared.

NEW LOUISIANA FINEST OF SHIPS

Commander Chapin Praises Battleship While Visiting Here.

There is not a better or finer battleship in all the world than the new Louisiana, according to the proud declarations of Lieutenant Commander F. L. Chapin, executive officer of that vessel, who is in Washington for a few days' visit with friends.

Mr. Chapin, who was formerly an assistant to the Bureau of Navigation, is here on his first visit since the Louisiana went in commission last spring, having left it at the New York navy yard.

Mr. Chapin is particularly proud of his ship, since she received her magnificent silver service from the patriotic people of Louisiana at New Orleans recently. "No ship's service could be more elaborate or magnificent," said the executive officer today.

PAWNS HIS SON TO PAY FOR WINE

PARIS, Jan. 21.—Mme. Leontine Bernhardt has applied to a magistrate for a divorce against her husband, who, she stated, had pawned her son.

She said her husband was a confirmed drunkard, who maltreated her, but she had refrained from making any complaint because of her son, a boy of ten. The previous night on coming home she could not find the boy. Her husband, who was half drunk, assured her that he had left the boy as a forfeit to a wine merchant with whom he was in debt.

He refused to give her the man's address, and when taken before the magistrate still continued to do so. "The boy belongs to me," he said, "and I will do what I like with him."

PAYS ONE DOLLAR A DAY FOR INTEREST IN MINE

WALLACE, Idaho, Jan. 21.—Michael Steffans has bought a half interest in four claims on Nine Mile creek from Michael Lennan, a pioneer prospector. The consideration is \$1 daily during the lifetime of the owner and his funeral expenses at death.

The claims are known as the Gold Finch, Savard, Gopher, Alice, and Eureka claims. The other half interest is owned by Major W. W. Woods, John Lennan located the claim in 1889 and held his interest ever since. He refused many offers to sell. Lennan is sixty-five years old and a civil war veteran, drawing a pension of \$12 a month.

SCARED OF HIS WIFE, SUES FOR DIVORCE

CLEVELAND, Jan. 21.—Stanley C. Sobieschowski is afraid of his wife. He says so himself. He swears to it in a petition for divorce from his wife, Frances, filed in common pleas court yesterday.

Sobieschowski, who lives at 295 East Sixty-fourth street, asks for an order of the court restraining his wife from speaking to him, abusing him, or threatening to take his life. His petition for divorce recites that two days and one month after the marriage, on Christmas Day, 1905, his wife scratched his face with her fingers and called him a criminal.

PARTOT MAY TELL FAMILY SECRETS

Poultry and Pigeon Show Opens at Temple in Morning.

The eleventh annual exhibit of the Columbia Poultry and Pigeon Association will open at 9 o'clock tomorrow morning in the Masonic Temple, and will continue for the remainder of the week. The hall will be open every day from 9 a. m. until 10 p. m., and will be the finest ever given under the auspices of the association.

Over two thousand exhibitors are registered, and it is expected that about 7,000 birds will be on view. Prizes ranging from \$5 to \$100 will be awarded by a group of judges, who will begin work with the opening of the show to-morrow morning. The judges will be: T. F. McGraw, George O. Brown, L. P. Graham, A. D. Brown, E. C. Duffy, C. Hugh Duffy, Joseph F. Bradford, W. P. Diermer, Philip Crouse, and Nelson R. Wood.

One of the interesting features of the show will be the new cage bird section in which will be found many of the interesting little feathered fellows that often find a cozy corner in a home. Canaries and parrots form a large part of this exhibit, and many families are liable to exposure during the week.

'POSSUM FIGHTS COW; HELP ARRIVES IN TIME

BELLAIRE, Ohio, Jan. 21.—Lee Crow, Harry La Bock, Nick Wagner, and Will Phillips were on the hills back of this city when they saw a large opossum attacking a cow.

The animal was jumping viciously at the cow, biting its nose and throat, from which blood was streaming freely. The cow was helpless to defend itself from the attacks of the opossum, which would have killed it had it not been disturbed.

It was so engrossed in its fight that it did not notice the approach of the men. They rushed in, killed it, and brought the body to town, where it was weighed, tipping the beam at ten and one-half pounds.

SCHOOLS AND COLLEGES

Financial. Financial. Financial. Financial. A MILLION A MONTH IN DIVIDENDS

That is what the United Verde Pays Senator Clark. We have the same ore bodies as the United Verde Mine. You can stand with one foot on the United Verde claims and with the other on the claims of the Hull Copper Company.

This picture (drawn from an actual photograph) shows that our property is directly against the United Verde whose rich deposits run right into our claims. Our mines designated by black lines surround Senator Clark's One Hundred Million Dollar property on three sides.

BIG DEAL IN A JEROME MINE

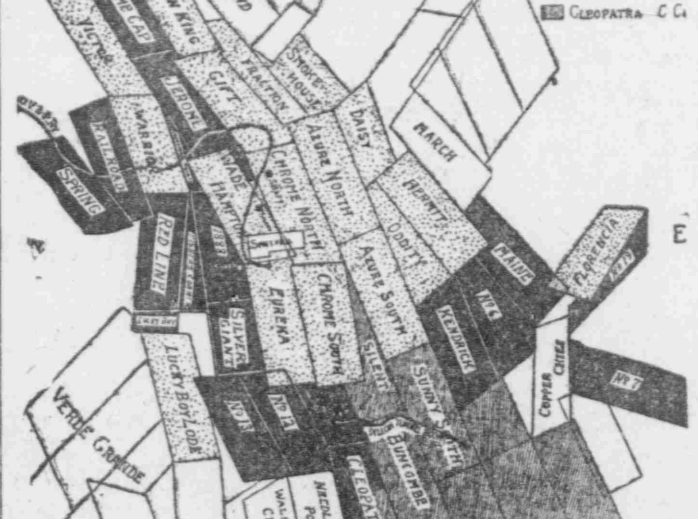

Eastern Syndicate Takes Over the Hull Properties Adjoining the United Verde.

From the Prescott Journal Miner, Sept. 22. By far the most important mining deal made in this country in recent years was made yesterday when a group of twenty-one interested mining claims, adjoining the famous United Verde properties at Jerome, passed into the control of the Hull Copper Company, in which a number of Eastern capitalists are interested.

An amount, which is but the preliminary capital for the opening of the promising properties, is to be at once placed at the disposal of G. W. Hull, president and general manager of the new concern, the intention being to erect a reduction plant of large capacity.

The holdings of the company lie immediately North, West, and South of and adjoining the great United Verde mines, and it is a fact well known to a large number of miners who are or have worked in the United Verde's Eureka, Wade Hampton, Chrome North and Chrome South mines that the immense ore bodies in these workings continue into the ground covered by the locations of the new company.

The opening of these ore bodies will mean much to the town of Jerome, which is now one of the most pretentious mining and smelter towns in the territory, and it is safe to assume that the population and business

United States Government Surveyor's Map of the Verde Mining District, showing location of our property.

There is Only a Limited Stock Issue

This is not a stock jobbing deal. We are not promoters, but are among the heaviest stockholders ourselves. The mines will make the money.

All our stockholders with us will make their money from the mines, and from the enormous increase in the value of their stock. We are not going to sell one share of stock more than we have to do, in order to further develop the mines ourselves.

Supposing Senator Clark had come to you a few years ago, and had said to you: "I want you to invest \$100.00 with me in the United Verde mine." Supposing you had invested that \$100.00 with Senator Clark in his mine, which is BANG UP AGAINST our mine? You would today be worth \$80,000.00, and you would be getting every year from that investment of \$100.00—\$5,000.00.

WORD FOR WORD—FACT FOR FACT—FIGURE FOR FIGURE—THIS IS EXACTLY THE SAME OPPORTUNITY THAT WE ARE OFFERING TO YOU TODAY. WE ARE NEXT DOOR NEIGHBORS TO THE RICHEST COPPER MINE IN THE WORLD.

HOW STOCK IS SOLD

Send your subscription today or wire us to reserve the amount of stock you want. This allotment is not going to last, and you must not lose this opportunity.

\$30 buys	200 shares, par value	\$200, at \$6 down, \$6 month
\$150 buys	1,000 shares, par value	\$1,000, at \$30 down, \$30 month
\$300 buys	2,000 shares, par value	\$2,000, at \$60 down, \$60 month
\$750 buys	5,000 shares, par value	\$5,000, at \$150 down, \$150 month
\$1,500 buys	10,000 shares, par value	\$10,000, at \$300 down, \$300 month

You may reserve your shares until after you have investigated. 5 per cent discount on all cash subscriptions over 1,000 shares. Send money by Draft, Registered Letter, P. O. or Express Money Order. Officers: Hon. O. W. Jerome, Pres., and Gen. M. H. E. Wilcox, Secy. Jerome, Secretary, M. B. Hazeltine, Treasurer, Prescott, Ariz.

We reserve the right to accept or reject any or all subscriptions. All subscriptions will be received subject to prior sale, and will be filled only in the order received.

Not a Prospect But a Producing Mine

The mines of the Hull Copper Company are not prospects. Developments have already been carried on a large scale.

It is going and producing NOW. Ore is being daily produced from our mines.

A shaft has been driven down for 475 feet and two drifts have been driven right into beds of RICH ORE. This ore yields in Copper alone \$40.00 to the ton—besides some gold and silver. This is high-grade ore.

Tests have been made on the Hull claims by the United Verde Company with diamond drills, and they have located bodies of high-grade copper ore on our property.

Here is Sworn Testimony to Prove It

In the suit of G. A. Treadwell against the United Verde Copper Company and Senator W. A. Clark, one of the expert witnesses, Mr. Albery, testified under oath that the United Verde Company ran a diamond drill several hundred feet in different directions from the Hull Copper Company's property and took out scores of high-grade copper ores.

We Have Already Spent \$250,000.00

The Company has already spent a Quarter of a Million Dollars for development in sinking shafts, laying tracks, and have a force of miners now at work.

We have 6,000 feet of tunnel shafts and levels. One shaft on claim "1888," within 150 feet of the United Verde Smelter, is down 475 feet, from which shaft a level or drift has been run 250 feet—the last 131 feet being in copper ore that runs 14 per cent copper—some gold and silver.

Our Dillon Tunnel, which runs in a distance of 1,810 feet, has an ore body at its breast 20 feet wide and assays 9 to 10 per cent copper—besides some gold and silver.

We will be able to produce from our ore deposits a smelter the size of the United Verde—this is one of the largest in the world—with a thousand tons of ore on which our net profits every year will be Ten Million Dollars.

Remember, we have 20 claims. Our claims cover over 250 acres—all prospected—work actually going on—ore being daily mined—covering the very richest copper district in Arizona already prospected and scientifically tested by experts as to the value of the ore deposits.

We Have a Title Protected by the Government

Every one of our claims is held under United States Patents, which gives us absolute Government protection.

The Hull Copper Company is the sole owner of these claims and the patents are on record in Washington, D. C.

There is not a cent of incumbrance of any kind on the company. Write to the Mayor of Jerome, Arizona, or to any business man in Jerome, or to the entire population of the city of Jerome, from capitalists to the miners themselves.

Here's a letter from one miner which practically embodies the statement of 20 others made to Mr. O. B. Stanton personally:

"In regard to your mine will tell you that I worked in the United Verde Mine on the 700-foot level in ore, and was stopped from going further, being told by the shift boss we are at Hull's line."

"All you have got to do is to drift from your shaft behind the United Verde workings to strike the ore; it is there."

"I have been working here about six years. I wish I could speak to you. I am sure you have got good claims. If I can do anything for you let me know."

STOCK NOW 15¢ A SHARE

Inasmuch as this allotment will be largely over-subscribed, we advise our clients, and those who may want to profit by the only opportunity to buy a "split-off" copper stock at a low price, to wire reservations and let remittances follow.

Invested in the United Verde Increased to \$80,000 and pays \$3,600 in dividends.

The HULL COPPER COMPANY, with your assistance, will shortly be a close second to the Verde. Senator Clark knows it; that's why he has made repeated offers for this property, which have been refused.

Fill This In and Mail Today. Write Plainly. O. B. STANTON & SON 1515 REAL ESTATE TRUST BLDG. PHILADELPHIA, PA.
